Dear Professor Cui,

We are interested in having you visit with us at the Department of Civil and Environmental Engineering of Princeton University, from August 1, 2017 to October 1, 2017. However, the exact starting date is flexible and it will depend on the processing time of your travel document.

The purpose of your visit is to collaborate on research with my research group in the areas of geoacoustics such as seismoelectric effects in borehole with outer interface, elastic waves in water-saturated porous medium.

I understand that your entire visit will be financially supported by your home institution.

We look forward to your visit.

Yours sincerely,
